

LegacySIP Bundled Minutes Price List

- Unlimited free SIP Trunks – Unlimited Call Paths – Unlimited Concurrent Calls
- High quality VoIP services for small and medium-size businesses
- No per call, per user, per phone, or per extension fees
- ◆ *Folks generally order more SIP trunks than they need in order to cover their maximum number of potential calls. “We have 12 lines/ports, so we should have 12 SIP trunks.”*
- ◆ We know there is a better way... Our customers buy what they were going to use instead.
- ◆ All of our plans are risk free and month to month. Cancel anytime, for any reason.

We need to keep you happy!

Our Minute Bundles vs. Unlimited SIP Trunks

With any Unlimited SIP Trunk plan, you are only able to have one phone call at a time per SIP Trunk.

Unlike SIP Trunk plans we do not restrict your simultaneous calls/conversations. Your callers will never be rejected or sent a busy signal (unless your PBX capacity is fully used).

With SIP Trunks only allowing only one concurrent call our 10,000 minute plan equals 17-20 Unlimited SIP Trunks. Using the common \$29.95 Unlimited SIP Trunk price 17-20 SIP Trunks would cost \$510-\$599. Our 10,000 min. plan with free SIP Trunks represents an average savings of \$465 per month vs. Unlimited SIP Trunk plans.

Medium Business Plan	Monthly	One Time
	\$130	\$0

The following conditions and notes apply to all bundles:

1. Outbound minutes include local outbound and long distance to US 48 and Canada except Yukon and Northwest Territories.
2. All orders include 60 minutes of pre-cutover testing by appointment. Missed appointment charge is \$75 for the first rescheduled appointment and \$150 for each additional rescheduled appointment. The charge does not apply if appointment is rescheduled at least 24 hours in advance.
3. SIP Bundles can be used to serve multiple locations. They include a single directory listing (411) and 911 listing. If additional 911, directory listings, or CNAM entries are needed they must be purchased from the Optional Features listed above.
4. Customer may order up to the number of DIDs shown in the tables above per bundle. Additional charges apply if customer orders fewer and wishes to add phone numbers after the initial installation. Phone number orders that are rescheduled or canceled could be subject to cancellation fees.
5. Inbound usage is included in the bundle and is subject to normal business use conditions.
6. 911 service is available for more than one location and/or more than one phone number. If customer requires additional 911 locations (such as a different location, floor or area at one address) they must purchase additional 911 services as shown on the Optional Features list. If customer direct dials from their phone then each phone/phone number is required to have a 911 location address associated with that phone number.
7. Toll-free usage is billed at the normal LegacySIP toll-free rates.
8. LegacySIP minutes bundles are for normal retail business use, and not for call center, wholesale or auto dial operations. LegacySIP reserves the right to modify the customer's service.
9. T.38 fax capability may be available for an additional charge based on location. T.38 is not included in bundle pricing.
10. Tier 4 DIDs are subject to an inbound surcharge. Contact us for a current Tier 4 DID area list.
11. Disaster Recovery Routing with Auto Detection requires customer having a static IP address.
12. Federal Universal Service Fund fee charged as required by the FCC.
13. State/Local Taxes and 911 Fees charged as applicable, varies by State and City.
14. There is a \$35 service charge to produce account minutes overage invoices.
15. Price list is subject to change without notice.
